

# ComfortPad

## Gel cushion

Silicone gel filled ear cushions with PUR (polyurethane) film that provide enhanced comfort by staying cool and conforming to the face. The gel pads are very flexible and seal well even when wearing glasses. They are approved for use with several popular hearing protection models from Hellberg.

### 1. ComfortPad Gel cushion

Article nr: 99404-001

## Overview

### Soft Silicone Gel Filling

Highly comfortable sealing pads that shape themselves to the face and maintain noise attenuation performance, even when used with glasses.

### Cool Polyurethane Surface

The thin PUR film is very flexible and helps keep the ring cooler compared to standard ear cushions.

### Compatible with Multiple Hellberg Hearing Protectors

The gel pads are mounted just as easily as regular ear cushions and they are approved for use on several of Hellberg hearing protection models.

Approved for use on: Xstream, Xstream LD, Xstream MP, Local 446, Local 2, Synergy DR.

### Features

- Cool and soft comfort
- Shapes to the face
- Easy mounting
